PROFESSIONAL SUMMARY

User-centered designer with a background in **Information Science Engineering (CGPA 8)** and **two certified UX internships**. Expertise in translating complex requirements into accessible **digital solutions** using **Figma**, applying core principles (**WCAG, Hick's Law**). Proficient in **high-fidelity prototyping, Information Architecture**, and code-aware design (**HTML/CSS/JavaScript**) for efficient **developer handoff**.

CORE UX SKILLS

Design Tools: Figma, Framer, FigJam, Miro.

UX Research: User Interviews, Surveys, **Heuristic Evaluation**, Cognitive Walkthrough, Competitive Analysis, Data Synthesis, Interpreting User Feedback.

UX Principles: Design Thinking, Agile Practices, Information Architecture, **Wireframing, Prototyping**, Design Systems, **WCAG Accessibility**, Interaction Design, Visual Hierarchy.

Methods: Analytical Thinking, Collaboration, Iteration, **Storytelling**, and Visual Communication.

Technical Skills: C, HTML, CSS, JS, React(Learning)

KEY PROJECTS

Cognia - Your AI-Powered Idea Partner (Systems & Innovation)

Minor Team Project

Designed a scalable Information Architecture (IA) for an AI-driven complex data system, developing smart capture flows that reduced user manual effort by an estimated **60%**.

Udemy Mobile App Redesign (Usability & Efficiency)

Personal Project

Streamlined the core course enrollment flow based on **usability test findings** (Hick's Law/Fitts's Law), reducing the steps from six to three to increase user efficiency by **50%**.

DysRead - Minimal, Dyslexia-Friendly Web Platform (Web Design)

Figma Makethon

Developed a minimal, dyslexia-friendly platform by rigorously applying **WCAG 2.1 standards** to demonstrate creative problem-solving and enhance digital accessibility.

PROFESSIONAL EXPERIENCE

Teknosys Solutions | UX Internship

Dharwad, India | August 2025 - October 2025

Collaborated with the development team on the company webpage redesign, focusing on **Information Architecture (IA)** to ensure intuitive user flow. Contributed to enhancing the user experience by transforming complex technical information (for the Manufacturing and Software domains) into clear, concise documentation, facilitating streamlined operation and reduced errors.

Hack Karnataka (GDG Hubli Team)

Dharwad, India | September 2025 - November 2025

Served as the UX Designer for the team, leading the design and conceptualization of the final web page deliverable.

Codec Technologies | UX Internship

Applied user research to inform high-fidelity prototypes. Improved key internal tool's task efficiency by **25%** by focusing on **WCAG 2.1 compliance** and optimizing user flows. Ensured seamless **developer handoff**.

EDUCATION

Bachelor of Engineering in Information Science Engineering

Dharwad, India | July 2026

Shri Dharmasthala Manjunatheshwara College of Engineering and Technology

CGPA: 8

Senior Secondary (12th Grade)

Mangalore, India | 2022

Expert Pre-University College - Valachil

Percentage: 80%

Secondary (10th Grade)

Dharwad, India | 2020

Presentation Convent School

Percentage: 87%
